

Shravan Meshram

Data Engineering | Machine Learning | Cloud Computing | Implementation Specialist

✉ Shravanmeshram60@gmail.com 📞 8888938203 📍 Nagpur 🌐 LinkedIn 🐙 Github

Profile

Data Engineer with hands-on experience in building ETL pipelines, data integration, and cloud-based analytics solutions. Skilled in Python, SQL, PySpark, and cloud platforms, with real-world experience in production data troubleshooting, UAT, and system implementations. Seeking a full-time Data Engineering role focused on scalable data platforms and analytics solutions.

Professional Experience

04/2025 – 03/2026
Nagpur, India

Implementation Specialist

HotelKey India

- **Led end-to-end deployment of Property Management System (PMS)** across 100+ hotel properties, handling system configuration, data integration, onboarding, and ensuring operational readiness at scale.
- **Engineered Python-based automation solutions (Selenium + APIs)** to streamline repetitive workflows, reducing manual effort by up to 90% and improving operational efficiency.
- **Worked extensively with large-scale datasets on AWS**, executing complex SQL queries for data validation, troubleshooting inconsistencies, and ensuring high data integrity during system rollouts.
- **Collaborated cross-functionally with clients, product teams, and support engineers** to resolve implementation blockers and deliver seamless system integration.
- **Identified process gaps and optimized workflows**, significantly improving deployment timelines and reducing post-implementation issues.
- **Provided technical support and training to end-users**, ensuring smooth adoption and minimizing downtime during transitions.

06/2024 – 05/2025
Nagpur, India

Data Engineering Intern

Tars Technologies

- **Developed an object detection model using YOLOv8** to enhance safety monitoring, achieving 95% accuracy in detecting protective gear for mine workers.
- **Collaborated on a full-stack LMS** using Next.js 13, React, Prisma, Tailwind, and MySQL, improving user experience and streamlining workflows.
- **Built a face recognition-based attendance system**, automating tracking for 50+ employees and reducing manual errors by 30%.
- **Mentored junior engineers** on best practices in containerization, model integration, and code reviews.

Technical Projects

PMS Configuration & Data Integration System (HotelKey)

SQL | AWS | Python | Postman | Charles Proxy | Jenkins

- Configured PMS solutions for hotel clients by integrating and validating data using SQL and AWS. Tested APIs using Postman and Charles Proxy, and streamlined workflows with Python to improve implementation efficiency.

API Automation & Workflow Optimization System (HotelKey)

Python | REST APIs | Requests | OpenCV | Jenkins | Postman

- Built Python-based API automation using Requests to handle GET, POST, and PUT operations for system integration and data workflows. Tested APIs with Postman, leveraged Jenkins for automation pipelines, and applied OpenCV for specific data handling use cases.

AI-Based Safety Compliance Detection System (Computer Vision)

Python | OpenCV | TensorFlow | MediaPipe | Flask | PyTorch | Scikit-learn | Pandas

- Developed and deployed a real-time computer vision system using OpenCV and TensorFlow to detect safety compliance, training models on custom datasets and integrating live video processing with automated alerts, reducing manual monitoring effort by ~40%.

Skills

Languages/Tools — C | Python | SQL | Data Structures

Big Data & Cloud — PySpark | AWS | Redshift

AI & Machine Learning & Visualization — Scikit-learn | TensorFlow | OpenCV | Pandas | NumPy | Power BI | Streamlit

ETL & Workflow — Apache Airflow | Data Modeling | Data Warehousing

Soft skills — Quick Adaptability Creative Thinking Problem-solving Leadership Communication

Education

2021 – 2025	B.Tech in Artificial Intelligence and Data Science
Pune, India	Vishwakarma University
	CGPA - 7.34

Certificates

SQL for Data Analysis LinkedIn Learning	Power BI Essential Training LinkedIn Learning
Data Engineering on Azure LinkedIn Learning	Generative AI: Working with Large Language Models LinkedIn Learning
